PROFILE

Experienced Game Designer with formal training in Analytics, Graphic Design, 3D Art, and coding. Organized, meticulous, and an initiative-taker. A strong collaborator with good collaborative skills, and a commitment to maximizing the production process within the Game Design pipeline. Experience on Agile development and Scrum. Skilled in written and verbal communication. Bringing forth a motivated and creative attitude with a variety of powerful skills. Socially adept, offering a friendly and helpful attitude, with critical thinking skills as well. Focused on innovation, with an enthusiastic vision about the area.

PROFESSIONAL EXPERIENCE

FOXTALES STUDIOS – São Paulo/SP, Brazil.

March 2020 – June 2022

Game Designer

- Worked on twelve games, from 2D to 3D, across multiple genres.
- Contributed mainly with World Building, like Level Design, Quests, Storyline and Balancing.
- Also developed prototypes for new game mechanics and features.
- In addition, worked as support 3D Artist, helping with Modeling, Animation or simply integration with Game Engines.

EDUCATION

Pontifícia Universidade Católica de São Paulo – São Paulo/SP, Brazil.

February 2020 – Present

Bachelor of Digital Games, Game Development.

The Bachelor's Degree in Digital Games at PUC-SP trains professionals able to work with teams that develop products, such as 3D environments; platform games; interfaces; experiences; solutions for mobile devices, and Prototype creation based on game design fundamentals. The curricular matrix includes visual aspects of gameplay, aesthetics, among others, through active methodologies, project based, which promote the student's role in his learning process.

Universidade de São Paulo – São Paulo/SP, Brazil.

February 2017 – January 2020

Bachelor of Statistics, Statistics/Mathematics; (Not Completed).

The Bachelor's degree in Statistics is a program in exact sciences with a solid foundation in Mathematics and Computer Science. The compulsory courses in the program combine this basic education with general knowledge of statistics, economy, and analytics, with data management with code, which is needed for a professional who will enter the job market.
